fhc flemingdon Health Centre

Our commitment to live and work in a strong community with access to high quality healthcare for all

By 2027:

underserved communities will have an easier time receiving health care and the supports, rights, and dignities we all deserve.

We will do this by:

Committing to our values of:

- Health equity
 Anti-racism & anti-oppression
- Community engagement
 Accountability & transparency
- Excellence Collaboration & partnerships •

Working with our community

to develop care for and by the people we serve.

Working with our partners

to build seamless pathways to care and support.

Working with our staff and peers

to live our values personally and professionally.

Expected outcomes:

Stronger relationships with the communities we serve

Greater community voice in shaping health systems and services

More health care access by underserved people

Networks that collaborate toward the same health goals

Greater change through a strong community voice in decision-making spaces

A workplace made up of members in our community that respects safety, wellbeing, and work-life balance
